## EDUCATION

### ROYAL MELBOURNE INSTITUTE OF TECHNOLOGY UNIVERSITY

- Bachelor of Software Engineering** Feb. 2021 – Nov. 2024  
*CSIT Society Member, ACS Certified By AHEGS* Grade: Distinction
- Foundation Study** Feb. 2020 – Nov. 2020  
*Excel in general and advanced mathematics, physics and programming* Grade: High Distinction

### UNIVERSITY OF MELBOURNE

- Master of Software Engineering** Currently Holding an Offer  
*with 100 units awarded of advanced standing*

## EXPERIENCE

**Total Game Development** Melbourne, Victoria  
*Software Development Intern (Contract)* Dec. 2024 – Present

- Developed and optimized AI-driven game modules in C++, increasing system performance and AI efficiency by 15%.

**ABC Academy of Music (Canada)** Melbourne, Victoria  
*Backend Development Intern (Contract)* Jul. 2024 – Nov. 2024

- Engineered Java-based microservices architecture using Spring Boot and JPA to improve backend modularity and scalability.
- Established Jenkins CI/CD pipelines, streamlining deployments and reducing downtime significantly.
- Resolved over 30 functional, logical, and security issues through Agile sprints, ensuring robust application performance.

**Guangdong Jianke Innovation Technology Research Institute Co., Ltd.** Guangzhou, China  
(广东建科创新技术研究院有限公司) Jul. 2023 – May 2024

*Software Engineer Intern (Full Time)*

- Developed and optimized Spring Boot applications, implementing critical business logic and task scheduling to enhance maintainability.
- Engineered efficient data access layers with MyBatis Plus, achieving improved database query performance.
- Enhanced response performance of 20+ Java RESTful APIs, significantly improving user experience.
- Identified and resolved over 120 security, performance, and usability defects, reducing user-reported issues by 50%.
- Integrated and developed 7+ Vue.js frontend components, seamlessly connecting them with backend Java APIs for smooth data manipulation and user interaction.
- Regularly presented technical progress to cross-functional teams, translating complex issues clearly to non-technical stakeholders.

**RMIT University** Melbourne, Victoria  
*Assignment Projects*

**AWS Cloud System Development** Mar. 2023 – May 2023

- Build a streamlined music query and subscription website using the Flask framework in Python.
- Implement streaming file operations for music using DynamoDB and S3 Bucket.

**Scabble Game** Sept. 2023 – Oct. 2023

- Develop a terminal-based C++ game featuring linked lists for efficient game data management, seamless gameplay.
- Config and compile the whole application with CMake scripts and debug in Ubuntu Linux.

## SKILL

Java, JavaScript, Python, C++, HTML, CSS, React, Vue.js, Next.js, Flutter, Spring Boot, Spring Framework, Microservices, MyBatis Plus, JPA/Hibernate, Git & GitHub, Jenkins, Docker, AWS (S3, DynamoDB, EC2), Alibaba Cloud (Nacos, RocketMQ), MySQL, PostgreSQL, MongoDB, SQLite, Cloudflare R2 Bucket, Unix commands, Linux, Agile Collaboration, Cross-Functional Teamwork, Communication, Documentation, Problem-solving, Project Management.

## CERTIFICATION

**IBM** - Full Stack Software Developer Professional Certificate (V5), Generative AI: Elevate your Software Development Career

**Microsoft** - Microsoft Certified: Azure AI Fundamentals

**Postman** - Postman API Fundamentals Student Expert

**RMIT University** - Resilience and Adaptability

## SPOKEN LANGUAGE

English, Cantonese, Mandarin
