EDUCATION

ROYAL MELBOURNE INSTITUTE OF TECHNOLOGY UNIVERSITY

- **Bachelor of Software Engineering** Feb. 2021 – Nov. 2024
CSIT Society Member; ACS Certified by AHEGS (LEVEL 7) WAM: 74
- **Foundation Study** Feb. 2020 – Nov. 2020
Excel in general and advanced mathematics, physics and programming GPA: 3.8 out of 4

UNIVERSITY OF MELBOURNE

- **Master of Software Engineering** Currently Holding an Offer
with 100 units awarded of advanced standing

EXPERIENCE

Total Game Development

Software Development Intern (Contract)

Melbourne, Australia

Dec. 2024 – Mar. 2025

- Contributed to new ship and battleship unit's implementation for a Visual Studio C++ game project, including ship creation, rendering, movement, pathfinding, and debugging pointer issues within a DLL-based module project.

ABC Academy of Music (Canada)

Backend Development Intern (Contract)

Melbourne, Australia

Jul. 2024 – Nov. 2024

- Engineered Java-based microservices architecture using Spring Boot and JPA to improve backend modularity and scalability.
- Established Jenkins CI/CD pipelines, streamlining deployments and reducing downtime significantly.
- Resolved 30+ functional, logical, and security issues through Agile sprints, ensuring robust application performance.

Guangdong Jianke Innovation Technology Research Institute Co., Ltd.

(广东建科创新技术研究院有限公司)

Guangzhou, China

Jul. 2023 – May. 2024

Software Engineer Intern (Full Time)

- Developed and optimized Spring Boot applications, implementing critical business logic and task scheduling to enhance maintainability.
- Engineered efficient data access layers with MyBatis Plus, achieving improved database query performance.
- Enhanced response performance of 20+ Java RESTful APIs, significantly improving user experience.
- Identified and resolved over 120 security, performance, and usability defects, reducing user-reported issues by 50%.
- Integrated and developed 7+ Vue.js frontend components, seamlessly connecting them with backend Java APIs for smooth data manipulation and user interaction.
- Regularly presented technical progress to cross-functional teams, translating complex issues clearly to non-technical stakeholders.

RMIT University

Assignment Projects

Melbourne, Australia

AWS Cloud System Development

Mar. 2023 – May. 2023

- Build a streamlined music query and subscription website using the Flask framework in Python.
- Implement streaming file operations for music using DynamoDB and S3 Bucket.

Scabble Game

Sept. 2022 – Oct. 2022

- Implemented a 2D grid-based Scrabble-like game using linked lists and node data structures to efficiently manage board state and game logic.
- Applied Breadth-First Search (BFS) algorithm to validate user-submitted letter tiles against a local English dictionary.
- Configured build and testing environments with CMake and performed debugging on Ubuntu Linux.

SKILL

Java, JavaScript, TypeScript, Python, C++, HTML, CSS, React, Vue.js, Next.js, Flutter, Spring Boot, Spring Framework, Microservices, MyBatis Plus, JPA/Hibernate, Git & GitHub, Jenkins, Docker, AWS (S3, DynamoDB, EC2), Alibaba Cloud (Nacos, RocketMQ), MySQL, PostgreSQL, MongoDB, SQLite, Cloudflare R2 Bucket, Unix commands, Linux, Agile Collaboration, Cross-Functional Teamwork, Communication, Documentation, Problem-solving, Project Management.

CERTIFICATION

IBM - Full Stack Software Developer Professional Certificate (V5), Generative AI: Elevate your Software Development Career

Microsoft - Microsoft Certified: Azure AI Fundamentals

Postman - Postman API Fundamentals Student Expert

RMIT University - Resilience and Adaptability

SPOKEN LANGUAGE

English, Cantonese, Mandarin
